

The AAPACN Education Foundation

Dedicated to fostering the educational advancement of nursing students and professionals within post-acute and long-term care practice through scholarship and other initiatives.

A Workforce Crisis

200,000+ openings for RNs per year over the next decade

This alarming figure from the US bureau of labor highlights a nursing workforce crisis already felt by the majority of post-acute and long-term care (LTPAC) facilities. Since the start of the COVID-19 pandemic, more than 15% of nursing home staff have retired early, changed fields, or left the workforce entirely. Attracting new RNs to LTPAC is critical for the future of the profession, and **providing financial support for RN education is the mission of the AAPACN Education Foundation.**

A Financial Challenge

\$29,000 a year – average CNA salary

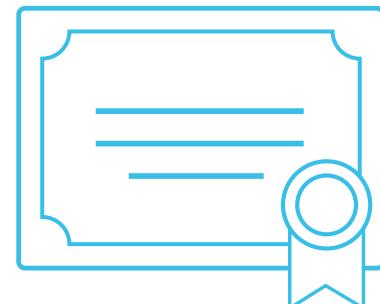

According to the National Center for Education Statistics, the average tuition for a two-year associate nursing program is \$3,780 per year and \$9,380 per year for a BSN program. For many young people entering the job market or CNAs hoping to become RNs, attending nursing school is something they simply can't afford. The **AAPACN Education Foundation is dedicated to lowering this financial barrier by providing academic scholarships for CNAs, LPNs, and RNs working in LTPAC.**

A Mission Of Nurse Education

\$134,000 in nursing scholarships

Since our founding in 2014, the AAPACN Education Foundation, the philanthropic arm of the American Association of Post-Acute Care Nursing, has funded \$134,000 in education scholarships, helping students earn their RN, BSN, or MSN and fulfill their career goals of working in LTPAC. We're proud of this support, but we want to do more! **The AAPACN Education Foundation hopes to expand our nursing scholarships in 2025. We need your help to get there!**
